

JAHAN SOFTWARE ENGINEER

[Undergraduate]

JAYALATH

PROFILE

I am a Software Engineering undergraduate student at SLIIT University. Passionate about coding, software development, and continuously learning new technologies and methodologies in the field. Skilled in programming languages such as Java, Python, and C++. Experienced in web development, mobile app development, and database management. Actively involved in university projects and extracurricular activities related to technology. Aspiring to build a successful career in software engineering and contribute to innovative and impactful projects in the tech industry.

EDUCATION

- SRI LANKA INSTITUTE OF INFORMATION TECHNOLOGY (SLIITUN)**
BSc (Hons) in Information Technology
Specialising in Software Engineering
Oct 2022 - Present
- UNIVERSITY OF MORATUWA (UOM)**
Full Stack Developer Program
Oct 2023 - Present

PROJECTS

WANDERLUST – AI-DRIVEN TRAVEL COMPANION

- Full-Stack Developer | MERN Stack + Python | Team Project
- Developed a smart travel planning web app that offers weather-aware trip suggestions, hotel and guide bookings, and AI-powered support. Integrated a Python-based ML model trained on 147K+ historical records to predict temperature, rainfall, and weather codes by city/date. Built an AI chatbot using NLP for real-time travel assistance.
- Tech Stack:** React.js, Node.js, Express.js, MongoDB, Python (NLP/ML), JWT, Tailwind CSS, Stripe, PayPal

CODESYNC – DEVELOPER COLLABORATION & LEARNING PLATFORM

- Designed a community-driven web platform for developers to share code, track learning progress, and collaborate through real-time interaction and notifications.
- Built REST APIs for post creation, user profiles, learning plans, and visual progress tracking using Spring Boot.
 - Developed key modules including post management and personalized learning dashboards.
 - Implemented OAuth2 security, real-time notifications, media uploads, and responsive React UI with MySQL backend.
 - Contributed to database design, unit testing, and documentation as part of a 4-member team.
 - Tech Stack:** React.js, Spring Boot, MySQL, OAuth2

CONTACT

- jahanrazh@gmail.com
- Kurunegala ,Sri Lanka
- Jahan Jayalath
- Jahan Jayalath
- Jahan's Portfolio

TECHNICAL SKILLS

- Programming Languages: Java, Python, C++, JavaScript
- Web Development: MERN Stack, HTML, CSS, php, Express.js, React.js, Node.js
- Mobile Development: Kotlin, Flutter
- Databases: MySQL, MongoDB
- Tools : Git, Android Studio, Visual Studio Code, Eclipse, IntelliJ IDEA
- Other: Agile/Scrum methodologies, REST APIs, OOP

SOFT SKILLS

- Teamwork
- Communication
- Problem-Solving & Fast learning
- Time Management
- Adaptability
- Critical Thinking
- Creativity

LANGUAGES

- English
- Sinhala

VOLUNTEERING EXPERIENCES

- Member of Leo club at SLIIT
- Member of IEEE student branch at SLIIT
- Member of Gaming Community at SLIIT

EXTRACURRICULAR ACTIVITIES

- Carrom Player, [SLIITUNI]
- School Softball Cricket Team Player, [KCC]
- School Football Team Captain,[KCC]

STELLAR-BUILD-ERP MANAGMENT SYSTEM

For Constrution Company

- university project (8 members) for Hamilton De Silva and Sons, Panadura. Developed a web application integrating user, employee, loan, financial, project, inventory, customer, and vehicle management to enhance operational efficiency.
- **Technologies Used:** MERN Stack,Material UI,GitHub,Figma,postman
- Figma Design 

ONLINE SCHOOL INFORMATION MANAGEMENT SYSTEM

- OOP group project (4 members) at SLIITUNI: Developed an online School Information Management System (SIS) using OOP concepts and design patterns to streamline school operations.
- **Technologies Used:** HTML5, CSS3, JavaScript, Bootstrap | Java Servlets | MySQL | Hosted on Apache Tomcat 9.0

Notes-Maker Mobile App

- Notes-maker app built with Android Studio, featuring SQLite storage and an intuitive interface for easy note management.
- **Technologies Used:** Programming Language: Kotlin
IDE: Android Studio,Database: SQLite

Diet plan and Health check-up System

- This project is a website for Diat plan and Health check-up system . This is developed using HTML, CSS, JavaScript, and PHP. This empowers peation to check Health and relevent Diat plan .
- **Technologies Used:** HTML5,CSS3,JavaScript,PHP,Bootstrap| PHP| MySQL|Hosted on XAMPP

Snake Mobile Game(Gem Snake)

- Snake mobile game where players collect gems to earn points, track high scores, and strategize to avoid boundaries. Features pause and resume options.
- **Technologies Used:** Kotlin,Android Studio

Food Ordering Mobile App For Fiesta Burgers

- Fiesta Burgers app lets users browse, customize, and order burgers with personalized options and special requests.
- **Technologies Used:** Kotlin,Android Studio
- Figma Design 

CERTIFICATES

- Python for Beginners - University of Moratuwa [\[CID-ezygwwlZge\]](#)
- Web Design for Beginners - University of Moratuwa [\[CID-XiR3xPq2hS\]](#)
- Two SQL Certificate (Basic,Intermediate) - HackerRank
- Create a Website Using Wordpress : Free Hosting & Sub domain - Coursera
- Information Technology Discipline Certificate - SLTC
- Introduction to Java - SoloLearn
- Introduction to JavaScript - SoloLearn
- Postman API Fundamentals Student Expert - Post man
- AI/ML Engineer - Stage 1 - SLIITUNI
- Programming in Python - 2 - UOM [\[CID-WLsm2XkCpW\]](#)
- UI/UX - Great Learning Academy.
- Big Data and AI - Great Learning Academy.

I hereby certify that the above-mentioned particulars are true and accurate to the best of my knowledge.
