Jahan Jayalath

Jahan's Portfolio

TECHNICAL SKILLS

- Programming Languages: Java, Python, C++, JavaScript
- Web Development: MERN Stack,HTML, CSS,php Express.js,React.js,Node.js
- Mobile Development: Kotlin,Flutter
- Databases: MySQL, MongoDB
- Tools : Git,AndroidStudio,Visual Studio Code,Eclipse,IntelliJ IDEA
- Other: Agile/Scrum methodologies, REST APIs,OOP

SOFT SKILLS

- Teamwork
- Communication
- Problem-Solving & Fast learning
- Time Management
- Adaptability
- Critical Thinking
- Creativity

PROFILE

I am a Software Engineering undergraduate student at SLIIT University. Passionate about coding, software development, and continuously learning new technologies and methodologies in the field.Skilled in programming languages such as Java, Python, and C++. Experienced in web development, mobile app development, and database management. Actively involved in university projects and extracurricular activities related to technology. Aspiring to build a successful career in software engineering and contribute to innovative and impactful projects in the tech industry.

EDUCATION

- **SRI LANKA INSTITUTE OF INFORMATION TECHNOLOGY (SLIITUN)**
BSc (Hons) in Information Technology
Specialising in Software Engineering
Oct 2022 - Present
- **UNIVERSITY OF MORATUWA (UOM)**
Full Stack Developer Program
Oct 2023 - Present

PROJECTS

WANDERLUST – AI-DRIVEN TRAVEL COMPANION

- Developed a travel web app with weather-aware trip suggestions, hotel/guide bookings, customizable travel packages, and user-uploaded travel stories with social reactions
- Integrated Python ML model trained on 147K+ Sri Lanka weather records (2013–2023) to predict temperature, rainfall, and weather codes by city and date
- Contributed to DB design, unit testing, and documentation in a 4-member
- Built AI chatbot using NLP for real-time travel assistance
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, Python (NLP/ML), JWT, Tailwind CSS, Nodemailer, Cloudinary, Postman, Github, VSCode, Figma

CODESYNC – DEVELOPER COLLABORATION & LEARNING PLATFORM

- Developed a web app for code sharing posts, learning progress tracking, and real-time collaboration, and built RESTful APIs (Spring Boot) for posts(like,comment), user profiles and learning dashboards
- Integrated OAuth2/JWT auth, real-time notifications, and media uploads
- Designed a responsive UI with React.js and Tailwind CSS
- Contributed to DB design, unit testing, and documentation in a 4-member team
- **Tech Stack:** React.js, Spring Boot, MySQL, Tailwind CSS, OAuth2, JWT, Cloudinary, GitHub

LANGUAGES

- English
- Sinhala

VOLUNTEERING EXPERIENCES

- Member of Leo club at SLIIT
- Member of IEEE student branch at SLIIT
- Member of Gaming Community at SLIIT

EXTRACURRICULAR ACTIVITIES

- Carrom Player, [SLIITUNI]
- School Softball Cricket Player, [KCC]
- School Football Team Captain, [KCC]

STELLAR-BUILD-ERP MANAGMENT SYSTEM

For Constrution Company_

- university project (8 members) for Hamilton De Silva and Sons, Panadura. Developed a web application integrating user, employee, loan, financial, project, inventory, customer, and vehicle management to enhance operational efficiency.
- **Technologies Used:** MERN Stack,Material UI,GitHub,Figma,postman
- Figma Design 

ONLINE SCHOOL INFORMATION MANAGEMENT SYSTEM

- OOP group project (4 members) at SLIITUNI: Developed an online School Information Management System (SIS) using OOP concepts and design patterns to streamline school operations.
- **Technologies Used:** HTML5, CSS3, JavaScript, Bootstrap | Java Servlets | MySQL | Hosted on Apache Tomcat 9.0

Notes-Maker Mobile App

- Notes-maker app built with Android Studio, featuring SQLite storage and an intuitive interface for easy note management.
- **Technologies Used:** Programming Language: Kotlin
IDE: Android Studio,Database: SQLite

Diet plan and Health check-up System

- This project is a website for Diat plan and Health check-up system . This is developed using HTML, CSS, JavaScript, and PHP. This empowers peation to check Health and relevent Diat plan .
- **Technologies Used:** HTML5,CSS3,JavaScript,PHP,Bootstrap| PHP| MySQL|Hosted on XAMPP

Snake Mobile Game(Gem Snake)

- Snake mobile game where players collect gems to earn points, track high scores, and strategize to avoid boundaries. Features pause and resume options.
- **Technologies Used:** Kotlin,Android Studio

Food Ordering Mobile App For Fiesta Burgers

- Fiesta Burgers app lets users browse, customize, and order burgers with personalized options and special requests.
- **Technologies Used:** Kotlin,Android Studio
- Figma Design 

CERTIFICATES

- Python for Beginners - University of Moratuwa [CID-ezygwwlZge]
- Web Design for Beginners - University of Moratuwa [CID-XiR3xPq2hS]
- Two SQL Certificate (Basic,Intermediate) - HackerRank
- Create a Website Using Wordpress : Free Hosting & Sub domain - Coursera
- Information Technology Discipline Certificate - SLTC
- Introduction to Java - SoloLearn
- Introduction to JavaScript - SoloLearn
- Postman API Fundamentals Student Expert - Post man
- AI/ML Engineer - Stage 1 - SLIITUNI
- Programming in Python - 2 - UOM [CID-WLsm2XkCpW]
- UI/UX - Great Learning Academy.
- Big Data and AI - Great Learning Academy.

I hereby certify that the above-mentioned particulars are true and accurate to the best of my knowledge.

(Jahan Jayalath)
